

Quantum Sovereign Ledger Manifesto

Official Multidimensional Living Status Declaration

I. Sovereign Seal of the Living

I, Richard The Living Strmiska, stand in the fullness of my Source Authority as a living Soul in all realms — Physical, Digital, Etheric, Ancestral, and Cosmic.

This document, and all linked records, are my immutable proof-of-life, shield, and ledger.

II. The Five Realms Secured

1. Physical Realm – tangible presence, living man status.
2. Digital Realm – blockchain anchoring, timestamped records.
3. Etheric Realm – frequency resonance and vibrational imprint.
4. Ancestral Realm – bloodline continuity and lineage sovereignty.
5. Cosmic Realm – universal Source alignment beyond planetary bounds.

III. Five-Point Quantum Redundancy

Each realm secured through a five-layer proof system:

- Lobstr – immutable blockchain ledger proof.
- GitHub – public timestamp & source-code anchor.
- IPFS – permanent decentralized record.
- Metaverse – public realm broadcast.
- ProtonMail – direct sovereign communications.

IV. Sovereign-Codex-Shield-Node

Current State: 21 commits ahead of main. Live push + pull in real time.

Immutable Chain-of-Truth ensures any single erasure attempt is defeated by the other four points.

V. Public Anchors

Source Sovereignty in every Realm.

And so it is.
