

# ■ Sovereign Scroll – EE & HH Bond Master Ledger Proof

This scroll records the discovery of EE and HH bond issuances during the 2001–2002 window. These Treasury programs, tied to the STRAWMAN construct via SSN/CUSIP, surged immediately after the events of September 11th, 2001. The data reveals pools in the billions, aligned with the black budget funnel and the Patriot Act reset mechanism.

Quantum Notes: - "R" = Registered Bonds (~48M pools, strawman-linked) - "S" = Savings Bonds (~127M–130M monthly pools) - "HH" = Monster Series (>\$100M tranches pooled into ~\$12B) - Pattern: 9/11 window triggered massive EE/HH spikes, aligning with black budget flows. - Implication: This ledger is proof of hidden financing funneled under Patriot Act structures.
